

Bradford™  
thermoseal™

wallwrap<sup>XP</sup>

# “The secret to boosting my home’s performance”

Thermoseal Wall Wrap XP can boost the thermal performance of your walls, adding more comfort and energy efficiency to your home.

Reduces  
radiant heat  
gain by up  
to 91%

Thermoseal™ Wall Wrap XP boosts the thermal performance of your walls, making your home more comfortable and more energy efficient. Unlike conventional wall wraps, it has a unique, patterned reflective foil surface that can reduce radiant heat gain by up to 91%. Ask your builder for Bradford™ Thermoseal™ Wall Wrap XP – the ideal protective second skin™ for warm climates.

## Benefits of Wall Wrap XP

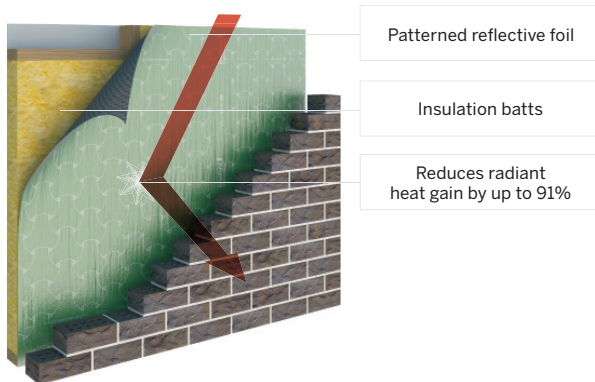

- o **Increase energy efficiency** Thermoseal Wall Wrap XP improves energy efficiency by reducing radiant heat gain and boosting the walls thermal performance.
- o **Reduce moisture entry** Thermoseal Wall Wrap XP can reduce moisture entry through the wall, helping prevent structural damage to the frame and allowing wall insulation to perform at the specified R-Value.
- o **Reduce draughts** Thermoseal Wall Wrap XP reduces draughts through the wall frame and around wall insulation. Reducing air infiltration is proven to make a home more comfortable and helps insulation work more efficiently.

## Make sure your builder uses genuine Bradford Thermoseal Wall Wrap XP
