

RECAP

This week, Harry and Tash created a grand, luxurious bedroom with all the right hints of 1920's. Using a muted colour palette, they used the large space to their advantage with skylights and feature wallpaper to make a statement.

JUDGES' HIGHLIGHTS

"The vaulted ceilings, that pitched roof, gives you this opportunity for this grandeur and this grace." - Darren

"They've got that nod to the period right in this room and I feel that the modern elements are not clashing." - Shaynna
