

Thermal & Acoustic Polyester Insulation

If you're looking for polyester insulation that's versatile, easy to install and delivers on performance, look no further than Bradford Polymax premium polyester insulation.

Bradford Polymax thermal insulation is designed to maximise comfort and save energy by keeping your home warmer in winter and cooler in summer. The result is a more comfortable home all year round and lower energy bills in the long run.

Bradford Polymax Acoustic batts reduce unwanted outside noise and minimise noise transfer between rooms and floors, making for a quieter home.

Made from 100% thermally bonded polyester fibres – just like the polyester used in quilts and pillows.

Why choose Polymax?

- Noise control in walls by reducing sound transmission
- Can reduce winter heat loss and summer heat gain
- Non-irritant
- Easy to install
- Made from 80% recycled fibre
- No waste is generated in manufacture
